

Villa Hemmed in by Carranza Troops But Escape is Predicted

**General Funston Closing In On Outlaw
From The North--Only Hope of Cap-
ture Lay in Making Him Fight**

AEROPLANES SPY ON HIDING PLACE

(United Press Staff Correspondent)
El Paso, Texas, March 20.—Report-
ed hemmed in among the canyons of
the Guerrero mountains, Francisco
Villa today was believed surrounded
by several columns of Carranzista
troops and the American expedition
closing down on him from the north.
However there were miles of moun-
tainous desert in the net the pursu-
ers were drawing around the outlaw
and escape was considered very like-
ly.

Aeroplanes were to be used on
spying on Villa's hiding place. Scour-
ing over mountain peaks several
thousand feet high they could pick
out the Villa men on mountain pas-
ses and signal their whereabouts to
General Pershing's scouts.

Villa was reported to have left a
small detachment at the Hernandez
ranch to hold off American cavalry
until he was hidden in the fastnesses
of the Sierra Madre. The American
column marching its corn fed cavalry
horses against Villa's tireless ponies
was making forced marches to get a
grip with the Villistas. The only
line in capturing him lay in mak-
ing him fight.

Like spokes in a great wheel, a
dozen American detachments today
were operating south and southeast
of Casas Grandes coming from the
district for Villistas. The fact that
General Pershing is directing his
greatest effort in a southeasterly di-
rection as announced by General Fun-
ston today apparently indicates that
Villa has swung to the south and east
since passing through Colonia Gracia
and is now near Naniquipa. This is
in Villa's most familiar territory and
confirms the report that he was in
the vicinity of the Babicora ranch.
At army headquarters it was an-
nounced today that the principal col-
umn of the American expeditionary
force under Pershing's personal com-
mand will be to the south and east of
Casas Grandes broken up into small
bodies, but all operating from the
new Mexican base.

In dispatches from General Persh-
ing at Casas Grandes, Gen. Funston
said no mention is made of the al-
leged Villa outrages committed on American
colonists in the Casas Grandes
region.

San Antonio, March 20.—General
Pershing is apparently matching his
war today with Francisco Villa. At
the head of a first column of troops
presumably made up of combined forces
of Pershing and Dodd he was now
operating with Casas Grandes as a
base.

The hard riding American cavalry
were hoping today to get into actual
contact with Villa's rear guard itself.
Reports that Villa is perpetrating
new outrages upon isolated American
colonies has spurred Pershing on his
new dash south. Word of these at-
tacks received at headquarters here
aroused evident apprehension. While
not officially confirmed, the fact that
the reports were passed by the mili-
tary censor indicated their serious-
ness.

Last official information received
at Fort San Houston indicated that
while not all of Pershing's main col-
umn has arrived at the newly formed
Mexican base of Casas Grandes, Gen-
eral Pershing himself had pushed
southward of that city with a caval-
ry regiment. Information that Vil-
la was hiding in the Galeana region
determined Pershing on a continuan-
ce of his southward drive in the
hope of forcing an early contact.

Carranza Not to be Embarrassed
Washington, March 20.—President
Wilson will do nothing in Mexico to
embarrass General Carranza. The
wishes of the de facto government
will be adhered to in every possible
way while the American expedition
is pursuing Villa. This was made
clear in a conference today between
the President and Secretary Peck of
the state department.

It became known that if Carranza
deemed it advisable not to give over
the use of the Mexican railroads for
the transportation of the American

(troops, the United States will not de-
mand that the roads be turned over
or take them by force. The United
States army will devise other
means of transportation. That Car-
ranza is in a very troublesome posi-
tion was admitted in official circles
today.

No Word Received of Outrages
San Antonio, March 20.—General
Funston has received no word of Vil-
la outrages upon American colonists
in Mexico, he stated at today's con-
ference with newspaper men.

Refugee Relates Story
El Paso, Texas, March 20.—On the
verge of a nervous breakdown, Mrs.
Wallace Rogers of Detroit, Michigan,
the wife of a mine owner, today
clashed her baby tightly in her arms
and repeated the story of a two days
refuge in an abandoned copper mine
shaft in the Cananea district, while
Villa bandits ravaged the country
side and sought to slay all Ameri-
cans.

Rats, bats and underground lizards
added terror to her hiding place.
Mrs. Rogers said she was compelled
to feed the baby condensed milk and
rattled the empty cans to scare the
rats away. Mrs. Rogers said the
Mexicans showed contempt of the
American flag and respected only the
British flag. Many Americans were
compelled to seek refuge under the
flag of the British Union Jack.

DELAWARE COUNTY WEALTHY

Philadelphia, March 20.—Delaware
county is shown to be one of the
wealthiest counties in Pennsylvania
by the report of the appraisers of
public property. The county's as-
sets are more than \$1,000,000, while
its debt is approximately \$100,000.

Sixteen bridges and the county
courthouse, appraised at \$500,000,
were built within the last five years
without raising the tax rate or bor-
rowing money. Forty wooden cov-
ered bridges, some of them built in
colonial days, as still in use but are
fast being replaced.

TAGGART APPOINTED SENATOR

Indianapolis, Ind., March 20. (By
United Press)—Governor Ralston to-
day appointed Thomas Taggart Uni-
ted States Senator to fill the vacancy
left by the death of Benjamin F.
Shively.

of Curwensville and J. P. Smith
of Curwensville and J. P. Smith

MIDVALE COMPANY PLANS \$8,000,000 IMPROVEMENTS

Philadelphia, March 20.—Additions
to cost \$8,250,000 will be made at the
Johnstown plant of the Cambria
Steel company, according to an offi-
cial announcement made here at the
office of the Midvale Steel and ordi-
nance company, which recently ac-
quired Cambria steel. The Midvale
company since its organization last
fall has started construction work all
in Pennsylvania, that will mean an
expenditure of over \$8,000,000.

Since the recent Cambria deal, it
has been announced that E. E. Sick
will continue to superintend the op-
eration of the Johnstown plant. The
additions to the works were agreed
upon in accordance with his plans.

There will be a new blast furnace
of large capacity. Its output will
run 450 to 500 tons of pig iron a
day, or about 15,000 tons a year.
This will balance the iron-making ca-
pacity of the plant to the require-
ments of the steel mills.

It is expected that the new furnace
will be ready to blow next autumn. A
new byproduct coke plant to sup-
ply this furnace with fuel will be
also constructed and back of that
there will be opened new coal mines
on the company's closely adjacent bi-
tuminous lands.

MAJOR TOMPKINS OF 18TH CAVALRY.

This is the first photograph of Maj. Frank Tompkins of the Thirtieth
Cavalry, at Columbus, N. M., the man who led the first American invasion
of Mexico, when he went at the head of troops after Villa and his band-
its. The photograph was taken the day the troops returned from their
chase after Villa. There was some discussion of holding Maj. Tompkins,
and Col. H. J. Slocum, his superior, because their troops crossed the
boundary line without orders from Washington. But it was found in
Washington that the suggestion was not popular.

DON GINGERY WILL NOT BE CANDIDATE FOR ASSEMBLY
Well Known Local Democrat Finds Three Shopping Days and Evening
Public Life in Conflict With Business Interests

Don Gingery is announcing to his
friends that he will not be a candi-
date for re-election to the legislature
on this Democratic ticket. Business
connections and responsibilities which
prevent his devoting so much of his
time to public affairs are given as
his reason for not seeking re-nomi-
nation. His many friends here, and
in Harrisburg will regret Mr. Gin-
gery's withdrawal from the legisla-
ture, where he has been a consid-
erable and valued member.

MURDERERS ELECTROCUTED

Rock View, March 20 (By United
Press)—Martin Kristian, 39, con-
victed of murdering his wife near Pitts-
burgh last September with a shot-
gun, expired his crime in the state
penitentiary here today when he was
shocked until death in an electric
chair. He was pronounced dead at
7:10 A. M.

Kristian is the fifth penitentiary
man to be executed in the electric
chair in Pennsylvania. Kahan was
also and apparently accompanied
when he entered the death cham-
ber. Physicians declared after he had
been pronounced dead, that he posses-
sed five shots to smother his life.
This is the greatest number of shots
given any of the other executed men.

CLEARFIELD HIGH LOSES TO BELLEFONTE ACADEMY

Saturday afternoon at Bellefonte,
the Clearfield High school suffered
the worst defeat which it has known
in years, when the Bellefonte acade-
my won in a basketball game 21 to
10. The game was a score of 21-10. Clearfield's
regular forwards, Lynn and
Mitchell, were out of the game on ac-
count of injuries. Darrin and Smith
filled the vacancies.

ALLIES MAKE AIR RAID ON GERMAN SUBMARINE BASE

**65 English, French and Belgian
Planes Participate in
Today's Attack**

Many of Raiding Aeroplanes Carried
200 Pounds of Bombs Each—At-
tack Made to Retaliate for Ger-
many's Raid on England.

London, March 20. (By United
Press)—In retaliation for Sunday's
German aeroplane raid on England's
east coast, 65 British, French and
Belgian planes attacked Zeebrugge
harbour, the German submarine and
air plane base, and the Belgian town
of Bruges, at an early hour this
morning.

Fifty of the raiding aeroplanes
carried 200 pounds of bombs each.
They rained these bombs down upon
the air plane station at Zeebrugge
and the German sea base at Bruges.
Fifteen aerial fighting planes
accompanied the invasion to engage
the enemy air men. The admiralty
announced this afternoon that all the
allied planes returned safely to their
bases.

The air raid on the German hero-
plane base, one of the greatest sky
attacks made by the Allies in Bel-
gium in many months, was also the
first instance in which allied air men
carried the war to the enemy's air
camp immediately after an invasion
of England. This policy it was said
will be spurred in every case hereaf-
ter. Lord Derby made this decision
immediately after he assumed the
office as official aviation minister. It
was reported.

RULING OF JINNEY CASES RAISES STORM OF PROTESTS

Harrisburg, March 20. (By United
Press)—Last week's ruling on the
Morantoin jinery cases has provoked
a storm of inquiries and protests to
the public service commission. Ever
yesterday a dozen or more messages
reached officials of the commission.
Today the flood continued both by
mail and telegraph. The messages
came from Erie and intermediate
points between Erie and Philadel-
phia.

The only information any of the
inquirers has received from the com-
mission has been to read the decision
carefully and if he decides that he is
operating a jinery under the same
conditions as the Morantoin respon-
sible, he had better quit until he ap-
plies to the commission for a cer-
tificate of public convenience. Each
inquirer furthermore has been ad-
vised to reduce his communication to
writing and send it to the commis-
sion.

BULGARIAN PREMIER IS ATTACKED BY EMPLOYEE

London, March 20. (By United
Press)—Premier Radosheffsky, of Bul-
garia, was attacked by a would-be
murderer while riding in an open car-
riage in the streets of Sofia yester-
day according to dispatches from both
Rome and Paris this afternoon. A
postal employee named Joffe fired
two shots at Radosheffsky. It was
said the first shot went wild. The
second shot wounded the Prime Min-
ister's coachman.

Radosheffsky could fire again in a
studio, spring upon him and over-
powered him. The Premier himself
sustained injuries. The Bulgarian pre-
mier is one of the dominant figures in
Balkan politics. He occupied a par-
ticularly prominent position during
the negotiations preceding the Bul-
garian entrance into the war.

OPERATORS AND MINERS HOLDING SESSIONS TODAY

**Morning Devoted to Informal
Discussion of Demands for
Increase in Wages**

Joint Sessions Begin at Two O'clock
This Afternoon and Continue Until
Wage Adjustments are Completed.

(Special to The Progress.)
Philadelphia, March 20.—Operators
of Central District, No. 2, met at
10:30 o'clock this morning at the Bel-
vue-Stratford and had an informal
discussion of the wage scale as it ap-
peared recently in The Progress, the
official scale not yet having been pre-
sented by the U. M. A. of A. B. M.
Clark of the R. & P. Coal Company,
presided, and twenty-seven
members of the executive committee
of the Operators Association, or their
alternates, were present. This com-
mittee acts as the scale committee
for the association and represents
90 per cent. of all coal produced un-
der union labor in the Central Penn-
sylvania district.

In the morning discussion certain
increases in wages of labor of spec-
ified classes were discussed, an effort
being made by the operators to arrive
at a basis upon which the demand
of the miners are based. The in-
creases called for in the new scale
run from 7 to 12 per cent.

The meeting adjourned at noon to-
day. The first joint session with
the wage committee of the miners
will be held at 2:00 p. m. today and
continuous morning and afternoon
joint conferences will be held until
the wage scale is settled upon.

PENN PUBLIC SERVICE CO. BUYS AN ELECTRIC PLANT

Messrs. David Chambers, T. B.
Buding and George Uzzle of the
Snow Shoe Electric Co., have just
disposed of their plant to the Penn
Public Service Co., which recently
extended its line to that place.
The deal will doubtless result in
the electrification of the numerous
coal mines in the vicinity of Snow
Shoe and furnish commercial power
and lighting through all the terri-
tory between Philipsburg and Snow
Shoe.

FIRE IN FOURTH WARD

This morning about 10:15 a fire
broke out in the home of Mrs. Alton
Peters on Seventh street and caused
about fifty dollars damage before the
flames were extinguished. The fire
was caused by a defective flue spark
setting fire to the walls of the build-
ing. An alarm was immediately sent
in, the fourth ward company being
the first on the scene. With hand
chemicals, the firemen put out the
flames in a few minutes.

MIRIN ANNOUNCES HIS ADVANCE SPRING OPENING

Event Scheduled for Tuesday Morn-
ing at Nine O'Clock—Store is
Attractive.

Completely renovated, following
the big fire which destroyed the bulk
of his stock, Mirin announces his
advance spring opening for tomorrow
morning at nine o'clock. The two
stories, for men and women, have been
decorated most attractively, and a
completely new stock made much to
the drawing power of the well known
store.

LIVELY POLITICS IN MILWAU- KEE.

Milwaukee, March 20.—Primaries
will be held in the various cities of
Wisconsin tomorrow to select candi-
dates for the municipal offices to be
held at the April elections. In Mil-
waukee, where a complete municipal
reform is to be made, the greatest
struggle for votes in years is prom-
ised. Numerous candidates have filed
for nearly every office on the ticket.
A vigorous campaign is being waged
to elect the new municipal govern-
ment needed by the city.

The situation is further com-
plicated by the fact that the
Democratic party is divided by the
question of running against the
Socialist party. The Socialists have
been very active in the campaign,
and the party is divided by the
question of whether to run against
them or not.

TWO CLEARFIELD BOYS DECAMP FOR REGIONS UNKNOWN

**Francis Butler And Albert
Moore Left Town On Lake
Shore Freight Last Night**

No Cause for Their Departure Given
By Relatives—Boys are Believed
to Have Taken no Money With
Them—Second Attempt of Butler's
To Leave Home.

Francis Butler of Pine street and
Albert Moore, son of Mr. and Mrs.
W. W. Moore of Fourth street, two
youths about 16 years of age, board-
ed a Lake Shore freight train last
evening and left for parts unknown.
The boys are thought to have taken
no money with them and the reason
for their leaving is not known.

The boys were seen to board the
train which was headed for Ashtab-
ula, near Cleveland, late last even-
ing but it was not known until some
time later that they had left the
town. No word has been received as
to the whereabouts of the boys or
where they expect to go, but it is
generally believed they will go to
Texas.

This is the second time that young
Butler has left home within the past
two months. The first time was late
in January when he left with over
five hundred dollars and was caught
in St. Louis after four day's search.
The first time he expected to go to
Texas and become a great detective,
thinking that state furnished a fertile
field for that occupation. For this
reason it is thought that he will
again head for that state.

Up to this afternoon, the authori-
ties here had not been requested to
make a search for the boys. Butler
displayed a lot of skill in evading
the police, during his first journey
and it is thought he will be caught
only after a long search.

MONDAY EVENING, MARCH 20, 1916

Most of the misunderstanding in this world comes of a lack of capacity for understanding.

The Progress' Spring Fashion number will be out Wednesday. It will be well worth waiting for.

Man must be in a funny condition if he can't tell the difference between the first robin of spring and the last snow-bird of winter.

Most of the people who see "Penrose" or "Brumbaugh" writ large over the Citizens' Committee slate would find something crooked in a knitting needle.

The morning news suggested that if Pershing's expedition did not catch Villa before the bandit reached the mountains, American troops would be withdrawn from Mexico, leaving the murderer unpunished. It is not too much to expect, but entirely too much to tolerate. We have stood for more blundering now than anyone would have thought possible of Americans. This act will be a fitting chapter to a whole book of blunders.

HERE'S HOPING.

That the crown prince eats his Christmas dinner in Paris as a guest of the Prefect of Police.

That the war will not affect the price of spring sunshine.

That the moths kept out of last summer's Sunday-go-to-meetin' suit.

SPRING AND THE BOROUGH DUMP.

Last year the borough council came within an ace of reaching an agreement with the county commissioners on the location of a municipal garbage disposal plant in the vicinity of the county home. Some trivial obstacle intervened, and the negotiations were declared off.

This year we have a new board of county commissioners and a new council to grapple with the old situation, and the hope is freely expressed that the two bodies will come to an early agreement on the location of the plant.

The site desired by the council is adjacent to the county home, on the river bank. It is particularly desirable as a location, as it will provide for the immediate need of a garbage plant, and the future one of a sewage disposal plant. Except that it might prove an offense to the inmates of the county home, the old board seemed to have no objection to the location. It sought by every means to show the commissioners that no sanitary nuisance would result from the plant, but to no avail.

The borough dump is unsightly, unsanitary, and unhealthful. It is a breeding place for flies and vermin, and no little of the fly nuisance to the practice of dumping the borough's garbage in a smelly pile just outside the borough limits.

Spring is coming—fast. With spring will come flies. With flies will come disease. It is not, therefore, unreasonable to expect some action on this very important question before the situation again become acute.

SAYS WE BECOME CRANKS ON HOT WATER DRINKING

Hopon Every Man and Woman
Adapts This Splendid Morning Habit

Why is man and woman, half the time, feeling nervous, despondent, worried, some days headachy, and not untrusting some days really incapacitated by illness.

If we all would practice fastidious habits, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions, we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms poisonous-like poisons which are absorbed into the blood.

Just as necessary it is to clean the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

OSCEOLA MILES

Rev. B. M. Brown, of Chicago, advance agent for the Johnson & Weaver evangelistic party was in town today.

Miss Isabel Buck celebrated her own and St. Patrick's birthday at her home last evening with the assistance of a lot of her young friends. An enjoyable evening was spent.

The W. C. T. U. held a delightful social at the home of W. P. Whitney on Friday evening. Miss Miller and Mrs. Samuel Irvin of Philipsburg were present.

Dr. C. S. Harkins entertained a number of his gentlemen friends with an elaborate dinner on Friday evening.

Some thermometers registered 15 below zero this morning.

There has been a great scarcity of cars this week and as a result many idle miners.

The Y. M. C. A. have booked the "Bucknell Trio" for an entertainment in the Fireman's arcade on March 24th.

Rev. H. H. Crotley is attending the conference at Altoona this week.

Dr. I. A. Downey representing the Chautauque association of Swanton was here Saturday and in a short time secured the guarantee necessary for a course here next fall or winter. Our high school teachers who have been conducting the Lecture Lyceum for several years are supporters of the Chautauque.

E. A. Hall attended the M. E. conference at Altoona on Saturday and Sunday.

Mrs. Harry Brown and daughter Helen are visiting the former's parents at Harrisburg.

George M. H. Good and daughter Elizabeth are visiting friends in Washington, D. C.

Dr. Robert Jackson left on Saturday for Cleveland where he expects to undergo an operation for goiter. His many friends here trust the operation will be a success and that he will soon be able to return.

TRIAL OF BIG FORECLOSURE SUIT.

New York, March 20.—The foreclosure suit in the case of the International Mercantile Company's collateral trust bonds appeared on the Federal court docket today, and it is believed that the trial of the famous case will be started before the end of the week. The trial promises to be a great legal battle between the opposing interests in the suit. Nearly a dozen of the most prominent law firms of New York have been retained as counsel, either by the New York Trust Company, as trustees on the mortgage on which the bonds were made, or by Chauncey M. Taylor, the New Jersey receiver of the company, who will formally oppose the foreclosure. The problem of the stockholders of the company and the financial interest of the company, their interests. Big financial interests and men of international reputation will figure in the testimony. Some of the prominent bankers and shipping men who are interested in the case are said to have been especially convenient at this time to take trips abroad.

DEPLORABLE CONDITIONS OF CHILD LABOR.

Trenton, N. J., March 20.—A campaign for conditions of child labor in the cranberry bogs of New Jersey, where 2,000 children of school age living in Philadelphia are employed every fall, with the best of their education, is anticipated, will be fought at a conference held tomorrow. At this meeting officials of the National Child Labor Association and others representing Pennsylvania and New Jersey school authorities will be present. An effort will be made to have the child labor laws of New Jersey and Pennsylvania made uniform. The conference also will consider the housing conditions among the cranberry workers, which are deemed to be more unsanitary and objectionable than those in the most congested tenement districts of the large cities.

Prince Albert fits your taste!

Meets the fondest wishes of any man who likes to smoke because it has the *right flavor* and aroma and coolness. It's the most cheerful tobacco you ever did pack in a jimmy pipe or roll into a cigarette. And it's so good you just feel you never can get enough. The patented process fixes that—and cuts out bite and parch!

Listen:
It's easy to change the shape and color of unreliable brands to imitate the Prince Albert taste, but it is impossible to imitate the flavor of Prince Albert tobacco! The patented process protects that!

When you fire up your first smoke you'll decide that you never did taste tobacco that hits your fancy like

PRINCE ALBERT

the national joy smoke

For it exceeds in goodness and satisfaction the kindest word we ever printed about it!

Men, we tell you this tobacco will be a revelation to you. So, take this information at 100%, get out the old jimmy pipe from its hiding place or locate the makin's papers—and fall-to!

Your wishes will be gratified at the nearest store that sells tobacco, for Prince Albert is in universal demand. It can be bought all over the states and all over the world! Topsy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such excellent trim.

Manager Expects to Get Champs

In Top-notch Condition in One Month's Training

so Rookies Expected to Get a Regular Berth on Team This Year—All Last Year's Regulars Back, But Not "Pop."

Hot Springs, Ark., March 23 (By United Press)—Last of the major league clubs to start spring training, the Boston Red Sox get together here today. They lumbered up a bit yesterday but it didn't last long today.

One short month only remains between them and the rewards of the annual call, yet Bos. Mgr. Carrigan feels confident that his Champs will be in top-notch form when the season starts.

For that longer of weeks, the lot of a baseball season, the bobby men have been toiling under the midline sun and when the new arrivals get down to serious batting practice today, they will have to face curves with mid-season breaks.

From all corners of the U. S. A., the champions of the world gathered together for the start of the 1935 season, with the watch word: "Repeat!" From every corner of the field or hotel, whether by player or onlooker, the subject of conversation was conjecture as to the repetition of a certain performance. The only real faces were those of the recruits for where the rookies are going to break into the playing line-up of the Clan Cartrassian this year, it is hard to see.

With Hobby and Gainer both full of pep and fighting for the regular berth on the first station; Jack Berry, who arrived in mid-summer shape from his practice at Holy Cross, holding down the key-stone sack; Larry Gardiner on the hot corner and Scott and Janvriencutting up in the short field, to say nothing of the fence-busting-and-protecting corporation of Spoke, Duffy and Harry, it is difficult to say where in the regular line-up the ump will announce in about a month, a rookie, no matter how ambitious, is going to fit.

The answer may be found in some unforeseen stroke, an accident to a regular or the development of a real phorom among the recruits, but present indications are that this will not transpire. Among the battery men the chief objects of interest are (1) Sam Agnew, whose pep and cherry proclivities and iron whip are already laden with joy by his new mates, (2) The work of the "three heroes of last Fall's conquest of the Philibeg, East, Leonard and Shore; each out to give his best season and each pitching like a house-fire and (3) The generally dandy appearance of the rest of Carrigan's lingers, each claiming he is ready to step in and pitch a full game

TODAY'S OLDEST STORY

Dallas, Texas, Mar. 20.—(City H. Engrs.) Several citizens have been asked by a young man in his department for a certificate of his age. He would like a large reward for his first paid day's work, at all during the year. He has received his certificate for the last year in 365 days. You sleep eight hours each day, which equals 122 days. This leaves 243 days. You rest eight hours each day, which equals 122 days. This leaves 121 days. There are fifty-two Sundays that you do not work or 52 days. This leaves 69 days. You have seconds off each Saturday, or 26 days. This leaves 43 days. You have one and a half hours each day for lunch, or 26 days. This leaves 17 days. You eat two weeks' vacation each year, or 14 days. This leaves 3 days, and then being the fourth of July we close on that day, so you've even no work at all.

TO VOTE ON RESOR PLATE BILL.

Washington, March 20.—(Official.) Washington is working with keen interest the final action to be taken by the senate on the bill of Senator Tillman, of South Carolina, to appropriate eleven million dollars for the purchase or construction of a twenty-thousand-acre plan for the United States government. Foodcock tomorrow afternoon is the time that has been fixed for the senate to take a vote on the measure.

**U's Grandmother's Recipe to Bring
Back Color and Lustre to
Hair**

You can turn gray, faded hair beautiful dark and lustrous almost over night if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Emulsion" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, unchanged by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied. These whose hair is turning gray or becoming faded have a strange way of not, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks are everywhere around, so get busy with Wyeth's Sage and Sulphur Emulsion. It and you'll be delighted with your hair, and feel one hour and your youthful appearance with in a few days.

This preparation is a tonic for the hair and is not intended for the cure, mitigation or prevention of disease.

TO ALL MY OLD FRIENDS:

It gives me great pleasure to tell you that the store is again in order—a better, cleaner, more likable store than the one you favored before the fire. I have stocked it with the season's choicest offerings, and every single article in it is new. I especially invite all my old customers to the opening tomorrow morning, and I promise them that they will find everything to their liking.

ABE MIRKIN

Mirkin's Great Reopening

Tuesday Morning, 9 O'clock

Every Article Is As New and Fresh As A Spring Daisy. Not A Single Piece of the stock Was Held Over From the Fire Sale.

I have had nearly two months to renew my stock. Those of you who attended the wind-up sale after the fire will remember that there was nothing left of the damaged goods. So you will know that I am telling the strict truth when I say that not a single article in this store today was held over.

This Reopening is what you have been waiting for, so I have made special effort to put into the store a line of goods which are as attractive as you will see this year.

The Opening Is Particularly For The Ladies' Department

The Showing will be in

Ladies' Ready-to-wear Coats, Dresses, Skirts, Underwear, Lingerie, Hosiery, Corsets, Ribbons, Gloves, Waists and Novelties.

A Special Attraction For First Days

On Tuesday and Wednesday I will Place On Sale These Extra Special "Glad To See You Back" Bargains In the Ladies' Department:

\$1.50 Silk Waists - - - 98c

\$1.50 Voile and Organdie Waists 98c

\$1.50 Kimonas - - - 98c

Villa Hemmed in by Carranza Troops But Escape is Predicted

**General Funston Closing In On Outlaw
From The North--Only Hope of Cap-
ture Lay in Making Him Fight**

AEROPLANES SPY ON HIDING PLACE

(United Press Staff Correspondent)
El Paso, Texas, March 20.—Report-
ed hemmed in among the canyons of
the Guerrero mountains, Francisco
Villa today was believed surrounded
by several columns of Carranzista
troops and the American expedition
closing down on him from the north.
However there were miles of moun-
tainous desert in the net the pursu-
ers were drawing around the outlaw
and escape was considered very like-
ly.

Aeroplanes were to be used on
spying on Villa's hiding place. Scour-
ing over mountain peaks several
thousand feet high they could pick
out the Villa men on mountain pas-
ses and signal their whereabouts to
General Pershing's scouts.

Villa was reported to have left a
small detachment at the Hernandez
ranch to hold off American cavalry
until he was hidden in the fastnesses
of the Sierra Madre. The American
column marching its corn fed cavalry
horses against Villa's tireless ponies
was making forced marches to get a
grip with the Villistas. The only
line in capturing him lay in mak-
ing him fight.

Like spokes in a great wheel, a
dozen American detachments today
were operating south and southeast
of Casas Grandes. The fact that
General Pershing is directing his
greatest effort in a southeasterly di-
rection as announced by General Fun-
ston today apparently indicates that
Villa has swung to the south and east
since passing through Colonia Gracia
and is now near Naniquipa. This is
in Villa's most familiar territory and
confirms the report that he was in
the vicinity of the Babicora ranch.
At army headquarters it was an-
nounced today that the principal col-
umn of the American expeditionary
force under Pershing's personal com-
mand will be to the south and east of
Casas Grandes broken up into small
bodies, but all operating from the
new Mexican base.

In dispatches from General Persh-
ing at Casas Grandes, Gen. Funston
said no mention is made of the al-
leged Villa outrages committed on American
colonists in the Casas Grandes
region.

San Antonio, March 20.—General
Pershing is apparently matching his
war today with Francisco Villa. At
the head of a first column of troops
presumably made up of combined forces
of Pershing and Dodd he was now
operating with Casas Grandes as a
base.

The hard riding American cavalry
were hoping today to get into actual
contact with Villa's rear guard itself.
Reports that Villa is perpetrating
new outrages upon isolated American
colonies has spurred Pershing on his
new dash south. Word of these at-
tacks received at headquarters here
aroused evident apprehension. While
not officially confirmed, the fact that
the reports were passed by the mili-
tary censor indicated their serious-
ness.

Last official information received
at Fort San Houston indicated that
while not all of Pershing's main col-
umn has arrived at the newly formed
Mexican base of Casas Grandes, Gen-
eral Pershing himself had pushed
southward of that city with a caval-
ry regiment. Information that Vil-
la was hiding in the Galeana region
determined Pershing on a continuan-
ce of his southward drive in the
hope of forcing an early contact.

Carranza Not to be Embarrassed
Washington, March 20.—President
Wilson will do nothing in Mexico to
embarrass General Carranza. The
wishes of the de facto government
will be adhered to in every possible
way while the American expedition
is pursuing Villa. This was made
clear in a conference today between
the President and Secretary Peck of
the state department.

It became known that if Carranza
deemed it advisable not to give over
the use of the Mexican railroads for
the transportation of the American

(troops, the United States will not de-
mand that the roads be turned over
or take them by force. The United
States army will devise other
means of transportation. That Car-
ranza is in a very troublesome posi-
tion was admitted in official circles
today.

No Word Received of Outrages
San Antonio, March 20.—General
Funston has received no word of Vil-
la outrages upon American colonists
in Mexico, he stated at today's con-
ference with newspaper men.

Refugee Relates Story
El Paso, Texas, March 20.—On the
verge of a nervous breakdown, Mrs.
Wallace Rogers of Detroit, Michigan,
the wife of a mine owner, today
clashed her baby tightly in her arms
and repeated the story of a two days
refuge in an abandoned copper mine
shaft in the Cananea district, while
Villa bandits ravaged the country
side and sought to slay all Ameri-
cans.

Rats, bats and underground lizards
added terror to her hiding place.
Mrs. Rogers said she was compelled
to feed the baby condensed milk and
rattled the empty cans to scare the
rats away. Mrs. Rogers said the
Mexicans showed contempt of the
American flag and respected only the
British flag. Many Americans were
compelled to seek refuge under the
flag of the British Union Jack.

DELAWARE COUNTY WEALTHY
Philadelphia, March 20.—Delaware
county is shown to be one of the
wealthiest counties in Pennsylvania
by the report of the appraisers of
public property. The county's as-
sets are more than \$1,000,000, while
its debt is approximately \$100,000.

Sixteen bridges and the county
courthouse, appraised at \$500,000,
were built within the last five years
without raising the tax rate or bor-
rowing money. Forty wooden cov-
ered bridges, some of them built in
colonial days, as still in use but are
fast being replaced.

**MIDVALE COMPANY PLANS
\$8,000,000 IMPROVEMENTS**

Philadelphia, March 20.—Additions
to cost \$8,250,000 will be made at the
Johnstown plant of the Cambria
Steel company, according to an offi-
cial announcement made here at the
office of the Midvale Steel and in-
vance company, which recently ac-
quired Cambria steel. The Midvale
company since its organization last
fall has started construction work all
in Pennsylvania, that will mean an
expenditure of over \$8,000,000.

Since the recent Cambria deal, it
has been announced that E. E. Sick
will continue to superintend the op-
eration of the Johnstown plant. The
additions to the works were agreed
upon in accordance with his plans.

There will be a new blast furnace
of large capacity. Its output will
run 450 to 500 tons of pig iron a
day, or about 15,000 tons a year.
This will balance the iron-making ca-
pacity of the plant to the require-
ments of the steel mills.

It is expected that the new furnace
will be ready to blow next autumn. A
new byproduct coke plant to sup-
ply this furnace with fuel will be
also constructed and back of that
there will be new coal mines be-
longing to the company's closely adjacent bi-
tuminous lands.

MAJOR TOMPKINS OF 18TH CAVALRY.

This is the first photograph of Maj. Frank Tompkins of the Thirtieth
Cavalry, at Columbus, N. M., the man who led the first American invasion
of Mexico, when he went at the head of troops after Villa and his band-
its. The photograph was taken the day the troops returned from their
chase after Villa. There was some discussion of holding Maj. Tompkins,
and Col. H. J. Slocum, his superior, because their troops crossed the
boundary line without orders from Washington. But it was found in
Washington that the suggestion was not popular.

MURDERERS ELECTROCUTED
Rock View, March 20 (By United
Press)—Martin Kristian, 39, con-
victed of murdering his wife near Pitts-
burgh last September with a shot-
gun, expired his crime in the state
penitentiary here today when he was
shocked until death in an electric
chair. He was pronounced dead at
7:10 A. M.

Kristian is the fifth penitentiary
man to be executed in the electric
chair in Pennsylvania. Others were
John and apparently accompanied
when he entered the death cham-
ber. Physicians declared after he had
been pronounced dead, that he posses-
sed five shocks to smother his life.
This is the greatest number of shocks
given any of the other executed men.

ALLIES MAKE AIR RAID ON GERMAN SUBMARINE BASE

65 English, French and Belgian
Planes Participate in
Today's Attack

Fifty of Raiding Aeroplanes Carried
200 Pounds of Bombs Each—At-
tack Made to Retaliate for Ger-
many's Raid on England.

London, March 20. (By United
Press)—In retaliation for Sunday's
German aeroplane raid on England's
east coast, 65 British, French and
Belgian planes attacked Zeebrugge
bridges, the German submarine and
air plane base, and the Belgian town
of Bruchelle, at an early hour this
morning.

Fifty of the raiding aeroplanes
carried 200 pounds of bombs each.
They rained these bombs down upon
the air plane station at Bruchelle and
the German sea base at Zeebrugge.
Fifteen aerial fighting planes
accompanied the raiders to engage
the enemy air men. The raiders
announced this afternoon that all the
allied planes returned safely to their
bases.

The air raid on the German hero-
plane base, one of the greatest sky
attacks made by the Allies in Bel-
gium in many months, was also the
first instance in which allied air men
carried the war to the enemy's air
camp immediately after an invasion
of England. This policy it was said
will be spurred in every case hereaf-
ter. Lord Derby made this decision
immediately after he assumed the
office as official aviation minister. It
was reported.

**RULING OF JINNEY CASES
RAISES STORM OF PROTESTS**

Harrisburg, March 20. (By United
Press)—Last week's ruling on the
Morantoin jockey cases has provoked
a storm of inquiries and protests to
the public service commission. Ever
yesterday a dozen or more messages
reached officials of the commission.
Today the flood continued both by
mail and telegraph. The messages
came from Erie and intermediate
points between Erie and Philadel-
phia.

The only information any of the
inquirers has received from the com-
mission has been to read the decision
carefully and if he decides that he is
operating a jockey under the same
conditions as the Morantoin respon-
sible, he had better quit until he ap-
plies to the commission for a cer-
tificate of public convenience. Each
inquirer furthermore has been ad-
vised to reduce his communication to
writing and send it to the commis-
sion.

**BULGARIAN PREMIER IS
ATTACKED BY EMPLOYEE**

London, March 20. (By United
Press)—Premier Radoschewski, of Bul-
garia, was attacked by a would-be
assassin while riding in an open car-
riage in the streets of Sofia yester-
day according to dispatches from both
Rome and Paris this afternoon. A
postal employee named Ivanoff fired
two shots at Radoschewski. It was
said the first shot went wild. The
second shot wounded the Prime Min-
ister's coachman.

Ivanoff could fire again in a
shooting spring upon him and over-
powered him. The Premier himself
sustained injuries. The Bulgarian pre-
mier is one of the dominant figures in
Balkan politics. He occupied a par-
ticularly prominent position during
the negotiations preceding the Bul-
garian entrance into the war.

OPERATORS AND MINERS HOLDING SESSIONS TODAY

Morning Devoted to Informal
Discussion of Demands for
Increase in Wages

Joint Sessions Begin at Two O'clock
This Afternoon and Continue Until
Wage Adjustments are Completed.

(Special to The Progress.)

Philadelphia, March 20.—Operators
of Central District, No. 2, met at
10:30 o'clock this morning at the Bel-
vue-Stratford and had an informal
discussion of the wage scale as it ap-
peared recently in The Progress, the
official scale not yet having been pre-
sented by the U. M. W. of A. R. M.
Clark, of the R. & P. Coal Company,
presided, and twenty-seven
members of the executive committee
of the Operators Association, or their
alternates, were present. This com-
mittee acts as the scale committee
for the association and represents
90 per cent. of all coal produced un-
der union labor in the Central Penn-
sylvania district.

In the morning discussion certain
increases in wages of labor of spec-
ified classes were discussed, an effort
being made by the operators to arrive
at a basis upon which the demand
of the miners are based. The in-
creases called for in the new scale
run from 7 to 12 per cent.

The meeting adjourned at noon to-
day. The first joint session with
the wage committee of the miners
will be held at 2:00 p. m. today and
continuous morning and afternoon
joint conferences will be held until
the wage scale is settled upon.

**PENN PUBLIC SERVICE CO.
BUYS AN ELECTRIC PLANT**

Messrs. David Chambers, T. B.
Buding and George Uzzle of the
Snow Shoe Electric Co., have just
disposed of their plant to the Penn
Public Service Co., which recently
extended its line to that place.
The deal will doubtless result in
the electrification of the numerous
coal mines in the vicinity of Snow
Shoe and furnish commercial power
and lighting through all the terri-
tory between Philipsburg and Snow
Shoe.

FIRE IN FOURTH WARD

This morning about 10:15 a fire
broke out in the home of Mrs. Alton
Peters on Seventh street and caused
about fifty dollars damage before the
flames were extinguished. The fire
was caused by a defective flue spark
setting fire to the walls of the build-
ing. An alarm was immediately sent
in, the fourth ward company being
the first on the scene. With hand
chemicals, the firemen put out the
flames in a few minutes.

Attractive.

Completely renovated, following
the big fire which destroyed the bulk
of his stock, Mirin announces his
advance spring opening for tomorrow
morning at nine o'clock. The two
stores, for men and women, have been
decorated most attractively, and a
completely new stock made much to
the drawing power of the well known
store.

**LIVELY POLITICS IN MILWAU-
KEE.**

Milwaukee, March 20.—Primaries
will be held in the various cities of
Wisconsin tomorrow to select candi-
dates for the municipal offices to be
held at the April elections. In Mil-
waukee, where a complete municipal
reform is to be made, the progress-
ive struggle for votes in years is prom-
ised. Numerous candidates have filed
for nearly every office on the ticket.
A vigorous campaign is being waged
to elect the two union non-partisan
committees needed by John B. Hall.
The situation is far more south-
ern than the fight waged by the
Socialists to remove James H. Brown,
the Mayor of Milwaukee, from office.

TWO CLEARFIELD BOYS DECAMP FOR REGIONS UNKNOWN

Francis Butler And Albert
Moore Left Town On Lake
Shore Freight Last Night

No Cause for Their Departure Given
By Relatives—Boys are Believed
to Have Taken no Money With
Them—Second Attempt of Butler's
To Leave Home.

Francis Butler of Pine street and
Albert Moore, son of Mr. and Mrs.
W. W. Moore of Fourth street, two
youths about 16 years of age, board-
ed a Lake Shore freight train last
evening and left for parts unknown.
The boys are thought to have taken
no money with them and the reason
for their leaving is not known.

The boys were seen to board the
train which was headed for Ashta-
bula, near Cleveland, late last even-
ing but it was not known until some
time later that they had left the
town. No word has been received as
to the whereabouts of the boys or
where they expect to go, but it is
generally believed they will go to
Texas.

This is the second time that young
Butler has left home within the past
two months. The first time was late
in January when he left with over
five hundred dollars and was caught
in St. Louis after four day's search.
The first time he expected to go to
Texas and become a great detective,
thinking that state furnished a fertile
field for that occupation. For this
reason it is thought that he will
again head for that state.

Up to this afternoon, the authori-
ties here had not been requested to
make a search for the boys. Butler
displayed a lot of skill in evading
the police, during his first journey
and it is thought he will be caught
only after a long search.

**BENEFIT ORGAN RECITAL
WILL BE GIVEN TUESDAY**

Program Consists of Organ Solos
And Several Songs

An organ recital will be given by
James K. Horton assisted by Mrs. E.
C. Reeve, Miss Annie Norris and
Mr. Van Osten on Tuesday evening at
8:15 in the Presbyterian church. No
admittance will be charged but a sil-
ver offering will be taken.

The recital is for a local interest
and is a very worthy cause which
needs and should have the help of all.
The entire amount realized will be
given to the Children's home which is
filled to capacity and greatly in need
of financial aid.

The program will be as follows:

MONDAY EVENING, MARCH 20, 1916

Most of the misunderstanding in this world comes of a lack of capacity for understanding.

The Progress' Spring Fashion number will be out Wednesday. It will be well worth waiting for.

Man must be in a funny condition if he can't tell the difference between the first robin of spring and the last snow-bird of winter.

Most of the people who see "Penrose" or "Brumbaugh" writ large over the Citizens' Committee slate would find something crooked in a knitting needle.

The morning news suggested that if Pershing's expedition did not catch Villa before the bandit reached the mountains, American troops would be withdrawn from Mexico, leaving the murderer unpunished. It is not too much to expect, but entirely too much to tolerate. We have stood for more blundering now than anyone would have thought possible of Americans. This act will be a fitting chapter to a whole book of blunders.

HERE'S HOPING.

That the crown prince eats his Christmas dinner in Paris as a guest of the Prefect of Police.

That the war will not affect the price of spring sunshine.

That the moths kept out of last summer's Sunday-go-to-meetin' suit.

SPRING AND THE BOROUGH DUMP.

Last year the borough council came within an ace of reaching an agreement with the county commissioners on the location of a municipal garbage disposal plant in the vicinity of the county home. Some trivial obstacle intervened, and the negotiations were declared off.

This year we have a new board of county commissioners and a new council to grapple with the old situation, and the hope is freely expressed that the two bodies will come to an early agreement on the location of the plant.

The site desired by the council is adjacent to the county home, on the river bank. It is particularly desirable as a location, as it will provide for the immediate need of a garbage plant, and the future one of a sewage disposal plant. Except that it might prove an offense to the inmates of the county home, the old board seemed to have no objection to the location. It sought by every means to show the commissioners that no sanitary nuisance would result from the plant, but to no avail.

The borough dump is unsightly, unsanitary, and unhealthful. It is a breeding place for flies and vermin, and no little of the fly nuisance to the practice of dumping the borough's garbage in a smelly pile just outside the borough limits.

Spring is coming—fast. With spring will come flies. With flies will come disease. It is not, therefore, unreasonable to expect some action on this very important question before the situation again become acute.

SAYS WE BECOME CRANKS ON HOT WATER DRINKING

Hopon Every Man and Woman Adapts This Splendid Morning Habit

Why is man and woman, half the time, feeling nervous, despondent, worried, some days headachy, and not untrusting some days really incapacitated by illness.

If we all would practice fastidious habits, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions, we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms poisonous-like poisons which are absorbed into the blood.

Just as necessary it is to clean the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

OSCEOLA MILES

Rev. B. M. Brown, of Chicago, advance agent for the Johnson & Weaver evangelistic party was in town today.

Miss Isabel Buck celebrated her own and St. Patrick's birthday at her home last evening with the assistance of a lot of her young friends. An enjoyable evening was spent.

The W. C. T. U. held a delightful social at the home of W. P. Whitney on Friday evening. Miss Miller and Mrs. Samuel Irvin of Philipsburg were present.

Dr. C. S. Harkins entertained a number of his gentlemen friends with an elaborate dinner on Friday evening.

Some thermometers registered 15 below zero this morning.

There has been a great scarcity of cars this week and as a result many idle miners.

The Y. M. C. A. have booked the "Bucknell Trio" for an entertainment in the Fireman's arcade on March 24th.

Rev. H. H. Crotley is attending the conference at Altoona this week.

Dr. I. A. Downey representing the Chautauque association of Swathmore was here Saturday and in a short time secured the guarantee necessary for a course here next fall or winter. Our high school teachers who have been conducting the Lecture Lyceum for several years are supporters of the Chautauque.

E. A. Hall attended the M. E. conference at Altoona on Saturday and Sunday.

Mrs. Harry Brown and daughter Helen are visiting the former's parents at Harrisburg.

George M. H. Good and daughter Elizabeth are visiting friends in Washington, D. C.

Dr. Robert Jackson left on Saturday for Cleveland where he expects to undergo an operation for goiter. His many friends here trust the operation will be a success and that he will soon be able to return.

TRIAL OF BIG FORECLOSURE SUIT.

New York, March 20.—The foreclosure suit in the case of the International Mercantile Company's collateral trust bonds appeared on the Federal court docket today, and it is believed that the trial of the famous case will be started before the end of the week. The trial promises to be a great legal battle between the opposing interests in the suit. Nearly a dozen of the most prominent law firms of New York have been retained as counsel, either by the New York Trust Company, as trustees on the mortgage on which the bonds were made, or by Chauncey M. Taylor, the New Jersey receiver of the company, who will formally oppose the foreclosure. The problem of the collateral trust bonds of the company now has become a national financial event, and the trial will attract the attention of the entire financial world. The trial will begin in the next few days. Some of the prominent law firms and leading men in the financial world are said to have been especially convenient at this time to take trips abroad.

DEPLORABLE CONDITIONS OF CHILD LABOR.

Trenton, N. J., March 20.—A campaign for conditions of child labor in the cranberry bogs of New Jersey, where 2,000 children of school age living in Philadelphia are employed every fall, with the best of their education, is anticipated, will be fought at a conference held tomorrow. At this meeting officials of the National Child Labor Association and others representing Pennsylvania and New Jersey school authorities will be present. An effort will be made to have the child labor laws of New Jersey and Pennsylvania made uniform. The conference also will consider the housing conditions among the cranberry workers, which are deemed to be more unsanitary and objectionable than those in the most congested tenement districts of the large cities.

DAILY LESSON IN HISTORY

One Hundred Years Ago Today
1816—The first paper mill in the United States was about to commence operations in Pittsburgh.

Seventy-five Years Ago Today
1941—Reports from Florida indicated an early close of the Seminole War, which had already cost the United States \$10,000,000.

Fifty Years Ago Today
1866—Gen. Ambrose E. Burnside was nominated as the Republican candidate for governor of Rhode Island.

Twenty-five Years Ago Today
1891—Lawrence Barrett, famous tragedian, died in New York City. Born in Paterson, N. J., April 4, 1838.

Prince Albert fits your taste!

Meets the fondest wishes of any man who likes to smoke because it has the *right flavor* and aroma and coolness. It's the most cheerful tobacco you ever did pack in a jimmy pipe or roll into a cigarette. And it's so good you just feel you never can get enough. The patented process fixes that—and cuts out bite and parch!

Listen:
It's easy to change the shape and color of unreliable brands to imitate the Prince Albert red tin, but it is impossible to imitate the flavor of Prince Albert tobacco! The patented process protects that!

When you fire up your first smoke you'll decide that you never did taste tobacco that hits your fancy like

PRINCE ALBERT

the national joy smoke

For it exceeds in goodness and satisfaction the kindest word we ever printed about it!

Men, we tell you this tobacco will be a revelation to you. So, take this information at 100%, get out the old jimmy pipe from its hiding place or locate the makin's papers —and fall-to!

Your wishes will be gratified at the nearest store that sells tobacco, for Prince Albert is in universal demand. It can be bought all over the states and all over the world! Topsy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such excellent trim.

TO ALL MY OLD FRIENDS:

It gives me great pleasure to tell you that the store is again in order—a better, cleaner, more likable store than the one you favored before the fire. I have stocked it with the season's choicest offerings, and every single article in it is new. I especially invite all my old customers to the opening tomorrow morning, and I promise them that they will find everything to their liking.

ABE MIRKIN

Mirkin's Great Reopening

Tuesday Morning, 9 O'clock

Every Article Is As New and Fresh As A Spring Daisy. Not A Single Piece of the stock Was Held Over From the Fire Sale.

I have had nearly two months to renew my stock. Those of you who attended the wind-up sale after the fire will remember that there was nothing left of the damaged goods. So you will know that I am telling the strict truth when I say that not a single article in this store today was held over.

This Reopening is what you have been waiting for, so I have made special effort to put into the store a line of goods which are as attractive as you will see this year.

The Opening Is Particularly For The Ladies' Department

The Showing will be in

Ladies' Ready-to-wear Coats, Dresses, Skirts, Underwear, Lingerie, Hosiery, Corsets, Ribbons, Gloves, Waists and Novelties.

A Special Attraction For First Days

On Tuesday and Wednesday I will Place On Sale These Extra Special "Glad To See You Back" Bargains In the Ladies' Department:

\$1.50 Silk Waists - - - 98c

\$1.50 Voile and Organdie Waists 98c

\$1.50 Kimonas - - - 98c

A Carnation Will be Given To Each Lady Visitor On the Opening Day.

ABE MIRKIN.

John Emerson, Following Triumphant Initial Film Appearance, Repeats Screen Success in "The Bachelor's Romance."

John Emerson, who recently made his first appearance on the screen in a film version of his former theatrical success, "The Conspiracy," which he became immediately popular with the motion-picture public throughout the world, returns to the screen in a four-part adaptation of Martha Norton's charming play, "The Bachelor's Romance," a Famous Players Film Company production appearing on the Paramount program at the Opera House tomorrow night.

John Emerson takes the part of the absent-minded and somewhat hapless bachelor who loses his heart in single process to make the acquaintance of the tango and the lobster a la volaille and by the way forgets until Newburgh. He even takes a mild interest in the tango and the lobster a la volaille and by the way forgets until Newburgh.
